High Capacity Internet Access for Businesses and Institutions

airCloud Communications' BUSINESS DEDICATED is the ideal solution for enterprises requiring mission critical, high capacity bandwidth. With access speeds from 5Mbps to 45Mbps, BUSINESS DEDICATED offers outstanding value over traditional Fiber, Bonded T1, and DS3 circuits.

SERVICE DESCRIPTION

airCloud Communications' BUSINESS DEDICATED service is delivered via microwave data connections bypassing all local Telco infrastructure. Options for licensed or unlicensed equipment offer flexibility in customizing the ideal solution for your technical and budgetary requirements.

BUSINESS DEDICATED is connected to your office network via Fast-Ethernet eliminating the need for expensive multi-T1 and DS3 routers.

LOCAL SUPPORT

airCloud Communications' highly trained US based support team provides prompt, courteous, and competent help. With a one-step escalation path your problems are quickly resolved.

FULLY MONITORED

airCloud Communications BUSINESS DEDICATED features 24x7x365 connection status monitoring ensuring maximum uptime, and the best connection performance possible.

END TO END CONTROL

airCloud Communications owns and operates our entire network from our upstream Tier 1 provider to your office. We are not required to depend on third parties for installation or repair.

PROVEN NETWORK

airCloud Communications' network is built using best-in-class equipment from Cisco, Motorola, and Trango. Redundant network feeds, as well as continuous stress testing and status monitoring ensure the maximum possible uptime, and best possible network performance.
