Typical Antenna used for SOHO

Business Internet Service for Small Office / Home Office Customers

airCloud Communications offers the fastest, most reliable, and cost-effective business-quality Internet access. airCloud bypasses all Telco and Cable carriers and delivers high quality broadband service directly to your office within 1 to 5 business days.

SERVICE DESCRIPTION

airCloud Communications' SOHO service is an excellent alternative to DSL, Cable, Dialup, Satellite, and Fractional T1 providing you with access speeds of 1.5Mbps x 750kbps*, five POP3 email addresses, and a Static IP Address.

LOCAL SUPPORT

airCloud Communications' highly trained US based support team provides prompt, courteous, and competent help. With a one-step escalation path your problems are quickly resolved.

END TO END CONTROL

airCloud Communications owns and operates our entire network from our upstream Tier 1 provider to your office. We are not required to depend on third parties for installation or repair.

PROVEN NETWORK

airCloud Communications' network is built using best-in-class equipment from Cisco, Motorola, and Trango. Redundant network feeds, as well as continuous stress testing and status monitoring ensure the maximum possible uptime, and best possible network performance.

Upstream speeds depend on distance and line of sight
