High Quality DSL Modem

## Business DSL Plans with local service and support

airCloud Communications offers DSL service with local support and service. With our local support and service you can expect a US based English speaking representative to answer your call and resolve your problem quickly.

#### SERVICE DESCRIPTION

Telco-based DSL with speeds up to 6Mbps. Static IP Address, POP3 email, and reliable hardware.

#### LOCAL SUPPORT

airCloud Communications' highly trained US based support team provides prompt, courteous, and competent help. With a one-step escalation path your problems are quickly resolved.

#### BYPASS BIG TELCO HELPDESK

airCloud Communications has access to second and third tier support centers eliminating "escalation" and reducing time to resolve connectivity issues. We navigate the repair process so you don't have to.

#### DRY DSL

An AT&T Dial Tone is not required for a Dry DSL connection.

#### COMBINED SERVICES

Combining a landline DSL connection with an airCloud Wireless Internet Connection can deliver 99.999% uptime at a price the Telcos can't touch.
