Provide Your Business Tenants With Reliable Internet Access

airCloud Communications offers business owners and leasing managers an opportunity to provide their tenants with a fast, reliable, and cost-effective high speed internet solution and receive a free Internet connection for their local office.

SERVICE DESCRIPTION

airCloud will install a high-capacity Internet connection to your building. Utilizing proprietary technology we distribute Internet access to each tenant office over the existing phone lines, thus eliminating the requirement to run new cabling. We provide all equipment, installation, support, and maintenance.

LOCAL SUPPORT

airCloud Communications' highly trained US based support team provides prompt, courteous, and competent help. With a one-tier escalation path your problems are quickly resolved.

FULLY MONITORED

airCloud Communications provides 24x7x365 connection status monitoring ensuring maximum uptime, and the best connection performance possible.

END TO END CONTROL

airCloud Communications owns and operates our entire network from end-to-end. We do not depend on third parties for installation or repair.

PROVEN NETWORK

airCloud Communications' network is built using best-in-class equipment from Cisco and Motorola. Redundant network feeds, as well as continuous performance testing ensure maximum possible uptime, lowest latency, and consistent performance.

SERVICE PLANS FROM \$99.00 PER MONTH
